[HamClock: Keep track of much more than the time](#)

HamClock is a kiosk-style application that provides real time space weather, radio propagation models, operating events and other information particularly useful to the Radio Amateur.

[WBØOEW](#)

[Open Headset Interconnect Standard](#)

We have no such standards for the interface between the user and the radio. Is the microphone a dynamic, or electret? Is it balanced, pseudo balanced, or unbalanced?
